PROFESSIONAL SUMMARY

Highly accomplished Senior Medical Coding Specialist with more than a decade of progressive experience supporting complex healthcare coding operations, clinical documentation validation initiatives and revenue cycle optimization programs across hospital systems, physician organizations and healthcare technology environments.

Demonstrated expertise in translating comprehensive medical documentation into accurate ICD-10-CM, CPT and HCPCS code assignments while ensuring alignment with official coding guidelines, payer requirements and regulatory compliance standards.

Specialized knowledge in HCC risk adjustment methodologies, retrospective chart review, documentation integrity analysis and quality assurance processes designed to improve diagnosis capture accuracy and reimbursement outcomes.

Proven ability to analyze high-volume medical records containing complex clinical scenarios, identify coding opportunities and deliver precise coding decisions within demanding productivity-driven environments. Recognized for maintaining exceptional coding accuracy, protecting confidential patient information and collaborating effectively with multidisciplinary healthcare teams to enhance operational efficiency.

CORE COMPETENCIES

- Advanced ICD-10-CM Diagnosis Coding | CPT Procedure Coding | HCPCS Level II Coding | HCC Risk Adjustment
- Clinical Documentation Integrity Review | Medical Necessity Validation | Coding Compliance Auditing
- Professional Fee Coding | Facility Coding Support | Retrospective Chart Review | Coding Quality Assurance
- EHR Platforms | Encoder Applications | Healthcare Information Systems | HIPAA Privacy Compliance
- Revenue Cycle Optimization | Regulatory Guideline Interpretation | Remote Coding Operations

PROFESSIONAL EXPERIENCE

Medical Coding Specialist II | Guidehouse | Mar 2022 – Jul 2026

- Executed advanced medical coding responsibilities by performing comprehensive clinical record evaluations, interpreting complex physician documentation and assigning accurate ICD-10-CM, CPT and HCPCS codes that accurately represented patient diagnoses, procedures and rendered healthcare services.
- Reviewed extensive inpatient and outpatient medical documentation including progress notes, operative reports, diagnostic findings and treatment records to determine appropriate code specificity while maintaining compliance with established coding standards.

- Applied advanced knowledge of official coding guidelines, payer policies and organizational compliance procedures to minimize coding discrepancies and support accurate reimbursement outcomes.
- Performed detailed documentation analysis to identify missing specificity, unsupported diagnoses and potential coding inconsistencies requiring clarification or quality review intervention.
- Maintained high-volume coding productivity while consistently achieving accuracy benchmarks through disciplined chart review methodology, technical coding expertise and attention to regulatory requirements.
- Collaborated with coding leadership, clinical teams and quality specialists to improve documentation accuracy, streamline workflows and strengthen overall coding performance.

Medical Coding Specialist II | Aquity Solutions | Mar 2021 – Mar 2022

- Provided specialized medical coding services for healthcare clients by analyzing complex patient records and converting clinical documentation into compliant diagnosis and procedure code assignments.
- Conducted detailed medical record reviews to validate documentation completeness, clinical relevance and appropriate code selection according to current ICD-10-CM, CPT and HCPCS standards.
- Supported client revenue cycle objectives by delivering accurate coding results, identifying documentation improvement opportunities and reducing potential claim-related coding issues.
- Managed independent coding assignments within contract-based production environments while maintaining strict adherence to quality expectations, turnaround requirements and confidentiality standards.
- Utilized advanced coding references, encoder tools and healthcare information systems to enhance coding precision and maintain consistency across assigned medical specialties.
- Contributed coding expertise to continuous improvement initiatives focused on accuracy enhancement, compliance protection and operational efficiency.

Coding Specialist II | Mercy | Apr 2017 – May 2020

- Performed comprehensive professional coding activities across multiple specialties by evaluating provider documentation and assigning accurate diagnosis and procedure codes supporting compliant healthcare reimbursement.
- Analyzed complex clinical encounters to determine appropriate code sequencing, diagnosis specificity and procedural representation according to nationally recognized coding guidelines.
- Conducted quality-focused chart reviews to identify documentation gaps, coding inconsistencies and opportunities for improved clinical data capture.
- Supported organizational compliance initiatives through accurate code validation, regulatory awareness and consistent application of healthcare coding standards.
- Maintained strong productivity performance while managing large volumes of medical records requiring detailed clinical interpretation and analytical decision-making.
- Collaborated with internal healthcare stakeholders to resolve coding questions and promote documentation practices that improved coding accuracy.

ADDITIONAL EXPERIENCE

Remote Coding Review Consultant | Inovalon | Feb 2016 – Feb 2017

Specialized in HCC and risk adjustment coding review by analyzing historical medical records, validating documented chronic conditions and ensuring accurate capture of clinically supported diagnoses for healthcare analytics initiatives.

Contract Coder | OS2 Healthcare Solutions | Jan 2016 – Feb 2016

Delivered contract coding support through detailed medical record analysis, compliant code assignment and quality-focused documentation review within a deadline-driven healthcare environment.

EDUCATION

Davenport University | April 2009 – December 2011
