RE: Senior Medical Coding Specialist Position

Dear Hiring Manager,

I am submitting my application for the Senior Medical Coding Specialist position with more than ten years of progressive experience supporting healthcare organizations through accurate clinical documentation analysis, compliant code assignment and revenue cycle optimization. My background includes extensive work across hospital systems, physician organizations and healthcare technology environments where I have developed advanced expertise in interpreting complex medical records and translating clinical information into precise ICD-10-CM, CPT and HCPCS coding solutions.

Throughout my career with Guidehouse, Aquity Solutions, Mercy, Jefferson City Medical Group and Inovalon, I have performed high-level coding responsibilities requiring strong knowledge of official coding guidelines, payer requirements and healthcare compliance standards. My experience includes professional fee coding, retrospective chart review, HCC risk adjustment coding, documentation validation and quality assurance review processes designed to improve coding accuracy and healthcare data integrity.

I specialize in analyzing detailed physician documentation, evaluating clinical indicators and assigning accurate codes that appropriately represent documented diagnoses, procedures and patient conditions. My approach combines technical coding knowledge with analytical review skills to identify documentation gaps, improve coding consistency and support compliant reimbursement practices.

I have successfully operated in demanding production environments where accuracy, productivity and regulatory compliance must be maintained simultaneously. I am experienced in reviewing complex charts, resolving coding discrepancies, applying updated coding regulations and collaborating with healthcare professionals to strengthen documentation quality and operational performance.

I would welcome the opportunity to bring my senior-level coding expertise, commitment to compliance and dedication to documentation accuracy to your organization. I am confident that my experience can support your coding operations while contributing to improved quality, efficiency and revenue cycle outcomes.

Thank you for your time and consideration. I look forward to discussing how my qualifications align with your organization's needs.

Sincerely,

Justin Wade Blankenship
